Accreditations´ validity

The students can check the contents of the accreditation in the document that they will find in the PROOFS section, inside of student's application page.

This document is only for information therefore is not valid.

UNEDassis accreditation is a digital document which will be available to all Spanish universities through our electronic headquarters.

At the time of admission process in the universities, students only have to submit the accreditation request receipt along with the invalid document.

Both documents are in the student's profile on the online platform.
