

## CURSO 2015/2016

### Those who may only register during the specific phase of the PAU:

- Students from foreign education systems referred to in article 38.5 of Organic Law 2/2006, of 3 May, on Education (students from education systems of member states of the European Union or of other states that have signed international agreements applicable in this regard, on a basis of reciprocity)
- Students having an upper level technical degree in the plastic arts and design or an upper level degree as a sports technician or the equivalent from foreign education systems or from the Spanish education system in companies that are located abroad.

The following documents should be submitted:

- A printout of the registration sealed by the corresponding banking entity.
- Photocopy of ID documentation or passport (certification not required).

Students from education systems of the member states of the European Union or from other states that have signed international agreements applicable in this regard do **not** need to certificate the official equivalence of their degrees in order to be admitted to Spanish universities.

However, the official recognition of these degrees with the Spanish Baccalaureate degree may be necessary for purposes other than university admission, with exemption from the entrance exam in no way conditioning said recognition.
