**EJEMPLO DE EXAMEN**

Your class has attended a panel discussion dealing with public amenities that should receive money from local authorities. You have taken the following notes:

**Which public amenities should receive money from local authorities?**

- **Bike lanes**
- **Public gardens**
- **Libraries**

Some opinions expressed in the discussion were:

“More and more people bike to work every day”

“Our town needs green spaces – parks are great for everybody”

“Nobody goes to the library anymore”

Write an essay discussing **two** of the public amenities in your notes. You should **explain which amenity is the most important** for local authorities to fund. **Give specific reasons to support your answer.**

You may, if you wish, make use of the opinions expressed in the discussion, but you should use your own words as much as possible.

Write an essay of **400-450 words in an appropriate tone and style.**
